

CKAN Coin Vesting Plan

The CKAN Coin Vesting Plan is designed to provide stability, foster trust, and align token distributions with the project's long-term goals. The gradual release of tokens ensures market stability while incentivizing all stakeholders to remain committed to CKAN's success.

Team and Advisors

- **Total Allocation:** 100 Million CKAN (10% of Total Supply)
- **Vesting Cliff:** 6 months
- **Vesting Period:** 5 years
- **Vesting Schedule:**
 - 10% of the total allocation (10 million CKAN) will be released every 6 months over 5 years.
- **Purpose:**
 - This allocation ensures the team and advisors are rewarded for their contributions over time, aligning their incentives with the project's sustained growth and success.
 - The 6-month cliff prevents early withdrawals and aligns token releases with key project milestones.

Advertisers and Partners

- **Total Allocation:** 50 Million CKAN (5% of Total Supply)
- **Vesting Schedule:**
 - 20% of the total allocation will be released immediately upon agreement.
 - The remaining 80% will be distributed monthly over 12 months (approximately 3.33 million CKAN per month).
- **Purpose:**
 - Gradual token distribution encourages advertisers and partners to remain actively engaged with CKAN throughout the year.

- Immediate release provides an incentive to onboard partners quickly and effectively.

ICO Buyers

- **Total Allocation:** 200 Million CKAN (20% of Total Supply)
- **Vesting Schedule:**
 - 30% of the total allocation (60 million CKAN) will be released at token launch.
 - The remaining 70% (140 million CKAN) will be released evenly over 6 months (approximately 23.33 million CKAN per month).
- **Purpose:**
 - Ensures that ICO participants have immediate access to a portion of their tokens to engage with the project and market activities.
 - Gradual release mitigates potential market volatility and encourages long-term holding.

Reserved and Locked Tokens

- **Development and Ecosystem Growth:**
 - Reserved for technical upgrades, platform enhancements, and ecosystem expansion.
 - **Allocation:** 100 Million CKAN (10% of Total Supply).
- **Community and Marketing Initiatives:**
 - Reserved for campaigns, giveaways, and efforts to boost adoption and awareness.
 - **Allocation:** 100 Million CKAN (10% of Total Supply).
- **Partnerships and Collaborations:**
 - Held for future strategic alliances and listings on additional exchanges.
 - **Allocation:** 100 Million CKAN (10% of Total Supply).
- **Locked Reserve:**
 - Reserved for long-term use cases, including token burns, liquidity incentives, or strategic utility.
 - **Allocation:** 300 Million CKAN (30% of Total Supply).

Advantages of the Vesting Plan

- **Market Stability:** The vesting plan reduces the risk of large-scale sell-offs, maintaining token price stability.
- **Long-Term Commitment:** Aligns all stakeholders with CKAN's goals by distributing tokens gradually over time.
- **Investor Confidence:** Demonstrates a structured and transparent approach to token distribution, fostering trust in the project.
- **Regulatory Compliance:** The planned release schedule adheres to best practices, ensuring regulatory alignment.
